

MEDICAL SICKNESS SOCIETY (MSS) WITH PROFITS PENSION FUND

31 January 2024

FUND OBJECTIVE

The MSS With Profits Pension Fund aims to provide capital growth over a medium to long term period by investing in UK and International shares, fixed interest stocks, property, cash and other related investments. The fund aims to avoid sharp rises and falls by 'smoothing' the return on your investment over the period of the plan.

UNDERLYING FUND PERFORMANCE (AS AT 31/01/2024)

Cumulative Performance to 31/01/2024

Please note that past performance is not a reliable guide to future performance and the value of your investment can go down as well as up, so you could get back less than you have invested.

The performance figures shown below are based upon the gross return on the underlying assets of the MSS Closed With Profits Pension Fund before charges are deducted and do not include the effects of smoothing. The return individual investors have received on their own investments will be different due to, for example, the amount invested, smoothing and charges.

CUMULATIVE PERFORMANCE (AS AT 31/01/2024)

	1 Year	3 Years	5 Years	10 Years
MSS With Profits Pension Fund	4.25%	18.11%	28.62%	84.71%

ANNUAL PERFORMANCE

EXAMPLE CLAIM VALUES AFTER CHARGES

The table below demonstrates what the potential cash in value for the MSS With Profits Pension Fund would have been at 01/02/2024, where a monthly payment of £100 has been paid into the Pension Plan 10 to 30 years ago.

These figures are based on historical performance of the fund after accounting for initial and ongoing charges, and are not guaranteed. Please note that past performance is not a reliable guide to future performance and the value of your investment can go down as well as up, so you could get back less than you have invested.

Figures shown are net of charges and include the effects of smoothing with regular bonuses and a final bonus added.

	10 Years	15 Years	20 Years	25 Years	30 Years
MSS With Profits Pension Fund	£18,634	£39,888	£71,193	£117,564	£184,783

With Profit payouts incorporate the effects of 'smoothing' of investment returns. Through 'smoothing' we may keep some of the investment growth back in periods of good return to cushion any reduction in value when stock markets fall. 'Smoothing' cannot fully protect customers when investment conditions decline over long periods.

We may add regular bonuses throughout the period of your investment and we might also add a final bonus when you cash in your policy.

SUSTAINABLE INVESTING

At Wesleyan, we're trusted to look after the financial futures of our members and customers. But that doesn't just mean managing your money. We're also dedicated to ensuring that the way it's invested delivers better outcomes for you, along with the environment, climate and communities we all live in.

So, it's our belief that as the Asset Manager (our Investments Team) and Asset Owner (Wesleyan), when assessing the sustainability of a company's operations, we should of course evaluate its performance, but also consider the following key areas: Environmental, Social and Governance (ESG).

More information on our approach to sustainability is available on our website at www.wesleyan.co.uk/about/sustainability
