

ISA INVESTMENT PLAN

TARGET MARKET STATEMENT & FAIR VALUE INFORMATION

WHAT IS THE WESLEYAN ISA INVESTMENT PLAN?

The Wesleyan ISA Investment Plan is designed to enable investment in the Wesleyan Assurance Society With Profits Growth Fund through an external stocks & shares ISA or Junior ISA product.

Clients can invest as much or as little as they wish, subject to the limits of the ISA or Junior ISA product, as a lump sum or regular amounts. Money can be disinvested at any time.

Because the investment is made within an ISA, returns are free of income tax and capital gains tax.

FAIR VALUE INFORMATION

Wesleyan Assurance Society has completed a fair value assessment of the ISA Investment Plan in line with regulatory expectations and an internally defined framework.

We have assessed our proposition and service and have determined them as offering value for money. We will perform this value assessment on a regular basis to ensure we continue to deliver good client outcomes.

PRICE & COSTS

The amount clients pay for the product represents fair value for the benefits they receive from it. In our assessment we have considered the amount that clients may typically pay to the investment platform and to their adviser. We recognise that individual financial advisers have different charging structures and that these do not need to be disclosed to Wesleyan Assurance Society. Advisers are therefore expected to undertake their own assessments to ensure the overall cost represents fair value to their client.
